Iwona Mączkowska, age 50

French language teacher, Poland

I teach the pupils from 5th to 8th classes. I started my teacher's career 8 ages ago, after the work in higher education administration. I'm also self-employed translator. GoDigital Training gives me the opportunity to enhance my digital skills in order to implement it in my everyday working practice. I will recommend the training to my colleagues .

Halina Wysokińska, age 60

Mathematics teacher, Poland

I'm the owner of the private math's school. I was disappeared when I realized that we have critical situation in the education due to the COVID pandemic. The situation was critical for private schools. GoDigital project and especially e-learning training was the best solution for us and just-in-time proposal. I will recommend the training to my colleagues. It's needed to have digital skills while we as a teachers want to follow our puppils.

Karol Zieliński, age 45
pedagogy teacher, Poland

I see the big added value in developing digital competences in primary school education. My colleagues and myself we don't have so much tools to use for attract our pupils while teaching. Some of the subjects are evidently not appropriate for e-learning. However we have to follow technological revolution and to know how to deal with e-learning if needed. I will follow this online training and collect the badges.

Monika Szostak, age 29
Polish language teacher, Poland

I'm working in e-learning private school. I know that as a teacher I have to enhance my skills continuously. GoDigital training was for me good opportunity to looking from the other perspective to the e-learning study. I found in the training inspirations for the strategy of my on-line classes. I will recommend this training for others.
