P2: REGIONAL DIRECTORATE OF PRIMARY AND SECONDARY EDUCATION OF CRETE

Kyriaki Reizoglou, age 48

Primary school music teacher, Greece

I teach music the last 23 years in primary school, to pupils from the 1st to the 6th grade. During "go digital" training I learnt how to use more efficiently internet applications and tools in teaching process. In addition all this knowledge helped me to use webex which was the perfect tool for distance teaching-learning. I would recommend it as the best way of pleasant teaching learning.

...

Eleni Athanasiadou, age 35

Elementary school teacher, Greece

I am a primary school teacher and I teach children Language , Maths , Physics. History, Geography , Religion etc. I find the program very useful , we learnt many things about practical digital tools. I will use the skills acquired from digital training in order to improve my teaching, make it more interesting and detailed and use tools to create a student's community through applications. The content of the training was well organized, detailed and easy to understand. I strongly recommend this training under any circumstances,

Emmanouela Angelaki, age 46

Elementary school teacher, Greece

I am a primary school teacher and I teach English Language. I teach pupils from 1st to 6th grade. I want to learn new things although. Definitely they are useful. I hope I will use the skills acquired from digital training in the classroom. The program is friendly, accordingly to our needs. I recommend this training under every circumstances.

Georgia Magklara, age 28

Elementary school teacher, Greece

I'm a special education teacher and I help students with dyslexia , autism and learning difficulties. Digital skills are very important for my teaching skills and I want to increase students interest through technology. I will use it to improve my students ' learning skills and to increase and maintain their interest in the lesson. This platform is easy to access and very friendly to use. Of course I will recommend this training. The acquired knowledge will help all students and especially students with learning disabilities.

Aikaterini Tsagkourni, age 45

Elementary school teacher, Greece

I'm a primary school teacher and I teach all subjects such as Mathematics, History, Geography, Greek language. I need digital skills to meet my students needs. I intend to use those skills in order to make my lesson more interesting and so students will enjoy themselves during lesson. The training was quite useful and helpful. The platform is friendly and easy to use. The content of the training is very easy to use and it is quite logically organized. I will use the acquired in the classroom for my teaching. Of course I will recommend this training because it is very useful and I would try to teach my students in very different alternative ways.
